The fianl vote was 9 to 3, the necessary three-fourths, and Sherwood was exonerated.

This morning at 9 o'clock the sealed verdict was handed to Judge Huston who read it in open court.

Arguments made by Walter Warren and John Hildreth for Sherwood were lucid and covered the ground completely. Their case was well made.

In the returns as tabulated by the county election board for the office of sheriff, there appeared 14 votes more for W. E. B. Sherwood than for Claude Mize, and thereupon the election certificate was issued to Sherwood. At the concresion or the re-count this 14 najority for Sherwood had been hanged to 35 in favor of Mise.

When Judge Huston ordered the reount, as asked by Claude Mize, the pallots in the contested precincts were pened and examined before both ourt and jury. In most of these preincts the returns of the election oficials showed that several voters in each precinct failed to express any preference for sheriff, but when these same precincts were recounted it was found that every ballot showed that the office of sheriff. In some cases voters testified that they did not vote for any candidate for that office, this was notably true in the testimony of Col W. H. Hornaday, who swore that he had voted for no one for sheriff.
